

PREPARTION SHEET FOR

Grain Beetle

For treatment to be successful the following preparation must be completed prior to service.

It is required for you to **remove all pets** and cover fish tanks **YOU MUST stay out of the unit during and after treatment for approximately 4 – 6 hours.** If you are pregnant or have any respiratory or medical issues it is recommended that you stay out of the unit for 24 hours.

1. Empty all kitchen cupboards/pantry
2. Go thorough all products such as dried food, rice, pasta, cereal, flour. If anything is old and expired chances are beetles are living inside.
3. Wash all containers in warm soapy water.
4. Vacuum and wipe down inside and out of all pantry/cupboards.

DETACH AND RETURN TO MANAGEMENT OFFICE

I am aware of the preparations and agree to have Pest Control Plus.....
