

Pest Control Plus .ca

**PREPARATION FOR TREATMENT -
PREVENTATIVE PEST CONTROL DUST**

Method of treatment: Dust treatment

It is not necessary to leave the unit but it is recommended that pets and people are removed from the area while the technician is applying the dust.

Preparation

ALL ELECTRICAL OUTLET FACEPLATES MUST BE REMOVED FROM ALL THE WALLS IN THE LIVING ROOM AND BEDROOM AREAS.

NOTE: Do not spray any insecticides on or near the area which has been treated & **do not** use any strong cleaners near the location treated.
