PREPARATION FOR TREATMENT - ROACHES - BAIT & DUST

For the Bait & Dust Treatment, it is NOT necessary to vacate the unit.

Empty the top and bottom of all kitchen cupboards and clean shelves.

Clear all counter tops.

Remove all empty kitchen drawers and place drawers on the counter.

Empty the upper and lower vanity cupboards in all bathrooms and clear all bathroom counter tops.

Pull out the fridge and stove and clean any dirt or crumbs that is behind the appliances.

After Treatment Information

Do not spray any insecticides or use any strong cleaners on or near bait placements after treatment.

Do not store any paper bags between the fridge and the cupboards.

****There may be increased activity for approximately
10-14 days following the treatment.****
