How to prepare your home for a Mice Treatment

It is not necessary to leave the unit. If you have a pet, kindly ensure it is secured safely before the technician enters your unit.

Please note your unit will be inspected and treated for the purpose of mice, and we will need access to the following areas:

1. To all lower kitchen cupboards, mainly underneath the sink
2. Underneath Sink in Bathroom
3. Behind both refrigerator and stove – kindly pull away from wall
4. Kindly clean inside lower kitchen and bathroom cupboards and behind refrigerator and stove to help with mice treatment.
